ANGRY GOD BACKS TRUMP 10 Nov 2026

In prayer I asked the Master of the Universe if Trump, like the medal I seemed to be offered at first glance, was also counterfeit bullshit. The answer received left no doubt that God hears and answers prayers. I hope to receive the real medal after I complete my tasks. These tasks were not assigned to by anybody else. They were self-assumed based on a mathematical (Equidistant Letter Sequence) Code that I cracked after 29 years of research and based on my patriotic American beliefs. I do eventually hope to win the real Presidential Medal of Freedom as shown Figure 1 below.

Figure 1 above is the real Presidential Freedom Medal that I am trying to earn.

Figure 2 below is the Freedom Medal that the Trump Team first wrote that I had won, and later said I had been only *nominated* for. I will not accept any medal for my work other than what is shown in Figure 1. Besides spending 29 years of hard work to break the Torah Code, I risk my life by

attempting to reveal what the Code says about alien life on Earth. Indeed, I name many of the most powerful people on Earth to stop their efforts to bring about our extinction.

Figure 2 above shows an angry response to my inquiry. The assumed cause of the anger expressed is that while the names of the medals are similar, the appearance of the medals bear no similarities. Therefor the Trump version is **not** a counterfeit of the traditional medal.

While I have no interest in the Trump Version or in any paper awards (I have a box full of real military medals that I won while on active duty), the matrix on Figure 2 is a most profound miracle. Odds against the right 48 letters with the phase **NO COUNTERFEIT BULLSHIT** appearing in an area of four columns by twelve rows with the best spelling of **TRUMP** are over six billion (6,248,470,470) to 1! These words were thought of before I searched for them. They are thus of an *a priori* nature.

The odds against the full 180-letter matrix at first appear to be even more spectacular – **over 1.4 trillion to 1!** Ah, but alas, these numbers do not stand up to a light inquiry. The new phrase shown was not found ***to be a priori.*** It was only seen ***a posteriori*** which means that I did not go looking for "*When Pharaoh says to you, 'Perform a miracle,' then say to Aaron, 'Take your staff and throw it down before Pharaoh,' and it will become a snake."*

I only noticed this phrase after reading the cross print for the entire matrix. But then why do I bother to show it? The magicians likely only came to Pharaoh with rods and with "magical" talents probably related to mind control, a talent allegedly common among aliens. If they did not create a real snake, then it could be said that what humans all saw was only artificial. This way of reinforcing an idea is often seen in the Torah Code. Further, snakes and other reptiles are often shown in reptilian creations, such as the snake-like Paul VI Audience Hall discussed in Chapter 2 of my book (see https://roffmanmarsresearch.com/?page_id=11226).

THE ISSUE OF PROFANITY. The last time that God produced anything in writing was likely the Ten Commandments written in stone on Mount Sinai. We all have somewhat similar concepts of God, but curse words are not among the common ideas. However, in reading Chapter 28 of Deuteronomy most of the chapter (after some blessings for those of us who keep His Commandments) we see are actual curses. President Trump curses a lot in public. Figure 2 is about him, so we see language employed that is designed for him to understand. I have gotten to know him quite well. One of my

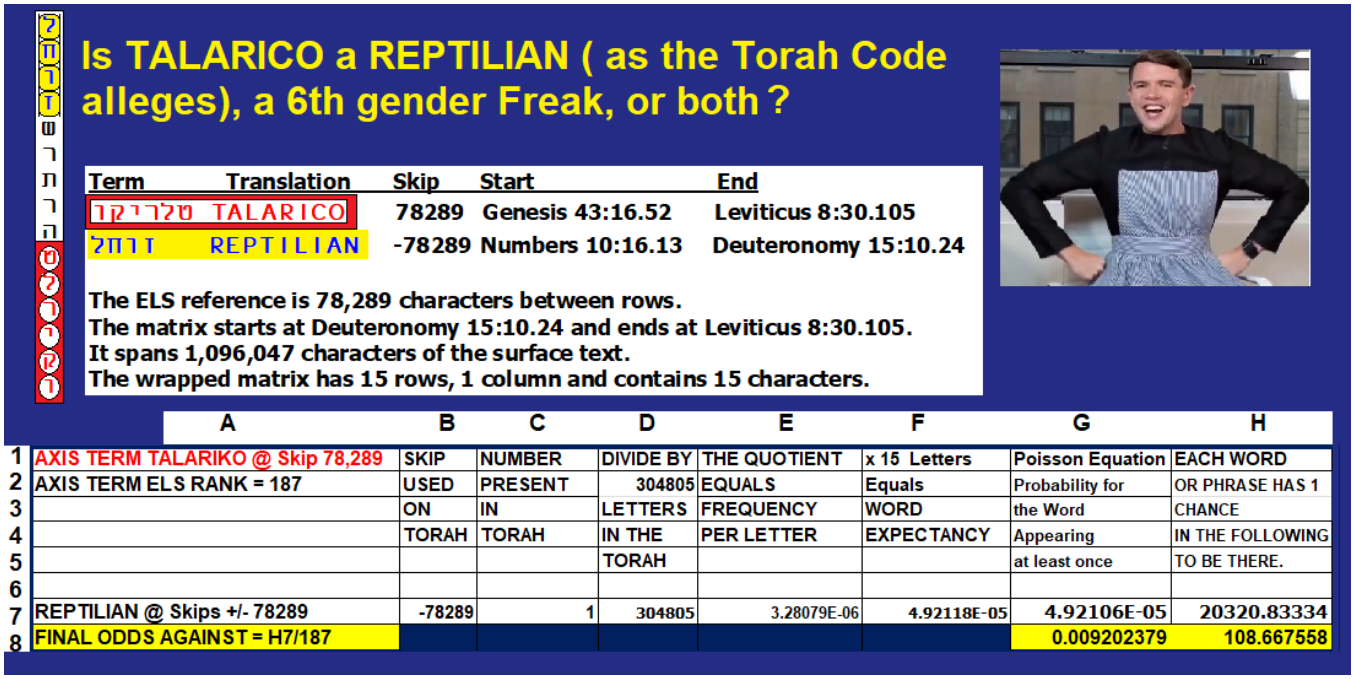

goals is to help him understand why the majority of the Democrat Party wants him dead and to do so without weakening him in a way that retards his fight with ultraliberals, and communists. I also want to make clear to him who in our government are reptilian shape shifters, and who must be exposed and toppled from Government. Just as I risk my life with this task, there is a need to accomplish it without setting off a civil war between humans. These goals are almost impossibly difficult. To accomplish them I need to teach vast numbers of people how to read the Code. The Code that I present to the world was not written by me, it was only broken by me. As of November 2026, I am just beginning to be heard by a few thousand people on a daily basis, mostly in Intelligence. It is too early to talk about awards, and I will beam happy the election is over because it consumes enormous amounts of my time just to respond to funding and paperwork for Republican causes.

GOD STRONGLY LOVES TRUMP. WHY?

I think God loves Trump in a manner reminiscent of how He loved King David. I always had second thoughts of that relationship because in order to fulfill his lust for Bathsheba, David sent her husband Uriah the still considered to be so righteous that we are told the Messiah will be one of his descendants. Apparently moral laws are different for national leaders than for their subjects.

God loved David in part because David wanted to build the First Temple as a home for God. God loves Trump because he wants people to follow basic laws of morality. The Democrats want to violate all rules required for sanity. Trump wants boys to be raised as boys who grow up to marry females. These marriages make children who continue our species. People who oppose Trump quite often want boys to marry boys or girls who marry girls who never have children. They thus attempt to fulfill a reptilian goal of human extinction. We were dumfounded to see an example of such gender confusion with the election of James Talarico to the U.S. Senate in Texas in 2026. During an April 2021 Texas House committee debate on a bill regarding student-athlete eligibility, state Representative James Talarico

discussed intersex conditions and chromosomal variations, remarking that there were "six really common biological sexes" (referring to biological sex/intersex variations rather than social genders). Talarico is strongly encoded in Torah as being a Reptilian. See Figure 3.

Given the perverted customs of the Left, Trump looks much saner and more acceptable. Yes, he seems too focused on gold, but Trump actively teaches that God exists. My only complaint about his view is that he teaches that the U.S. is a Christian nation. I see it as a Judeo-Christian nation. The Left denies God's existence and moral standards. The first near three quarters of a Christan Bible (Old Testament or Tenach) is basically the history of the Jewish people and Israel. The Left not only rejects the entire Bible, but it wants Jews dead and it celebrates the massacre of 1,200 Jews on October 7, 2023. There is no comparison between the Left and Right. And thus God very much loves Trump even when his theology is a bit off.
